
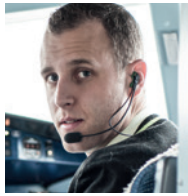
"With FreeCom you have nothing on your head anymore. It is small, light and comfortable to wear with sunglasses and with or without helmet."

Alex Itin, pilot & flying instructor

"With FreeCom your head is free and you soon forget you are wearing a headset – pure freedom!"

Daniel Brun, aerobatic pilot



"You don't feel it at all. FreeCom means complete freedom."

Daniel Schwerzmann, commercial pilot

FreeCom – the world's most comfortable aviation headset

Liberate your ears

FreeCom – Aviation headsets

PHONAK

Liberate your ears

Why Phonak?

With FreeCom, discover the new way of flying!

With 60 years of global experience, Phonak is the world's leading hearing healthcare company. Due to its background in hearing aids and related technologies its acoustic and audiological expertise is second to none.

FreeCom encompasses all Phonak's technological expertise. It is the most comfortable and light headset on the market, and the exact opposite of bulky earmuff style headsets.

FreeCom 7100

This state-of-the-art boom microphone headset features adjustable ambient sound awareness.

This feature allows to quickly hear sounds in the cockpit without having to remove the headset from the ears, while remaining connected to the intercom system.

Suits: any flying situation (quiet or loud) in which natural hearing is required.

- No covering of the ear, pressure or sweating
- Professional hearing protection
- Crystal-clear voice transmission
- Adjustable ambient sound awarness
- Intercom volume control

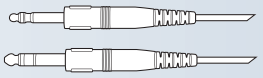
FreeCom 3000

This ultra-light, single-sided boom microphone headset features excellent speech intelligibility and crystal clear voice transmission.

Suits: quieter flying environments such as airlines cockpits, gliders etc.

- No covering of the ear, pressure or sweating
- Excellent audio quality
- All-day comfort

One headset + a choice of connectors = a unique solution.



Twin connector: PJ055 / PJ068

Single connector: XLR-5

Single connector: U174/U

Connectors

All Phonak aviation headsets are available with a choice of connectors. Such modularity is essential for pilots who enjoy flying different types of aircraft.
