SURVEILLANCE
COUNTERMEASURES

Dyplex T.S.C.M Group

“Knowledge is Power”

Threats to your most valued assets of Intelligence be it written, oral or electronic is a Personal and Corporate responsibility. Securing your privacy against unwanted intrusion is a challenging task. How do you know if your Corporate Intelligence is be intercepted? What is at risk to you or your company? Dyplex has over 25 years in Electronic Surveillance solutions for Law Enforcement and Military. The Dyplex Technical Surveillance Countermeasures team members bring over 50 years of Policing experience Federally and Provincially. There is over 15 years of Police Technical expertise including 10 years as the Provincial Electronic Countermeasures Expert providing electronic and physical security to the Premier of Ontario and Cabinet.

Corporate Intelligence

What is it and how do we secure it?

Corporate Intelligence, whether it is Cutting Edge Technology or your Corporate Strategy, you can't afford the loss of your organization's advantage over the Competition through surreptitious interception of information.

Corporate Espionage is a reality! A Google Search alone of Corporate Espionage reveals an ominous window to the vulnerability and devastation Corporations face through Financial impact and their Corporate and Personal image. Often these stories go unreported and without investigation to protect investor confidence. The release of designs and information unknowingly to competitors and the public, ruins years of your hard work and your Research and Development investment.

The terms “Due Diligence and Risk Management” are repeated time and time again by Solicitors. Dyplex Communications will provide that due diligence and minimize your risk through an Electronic and Physical Security Assessment.

Technical and Physical Surveillance

Securing your offices, boardrooms and off-site meeting locations, wherever sensitive materials are discussed or kept is an on going responsibility. Electronic data, conversations and presentations are all subject to unwanted interception and disclosure. Dyplex Communications is a trusted company, that for over 25 years has been working with Law Enforcement and Government with products designed for the use of surreptitious surveillance and counter-surveillance. They are one of only a few Canadian companies licenced to deal with these restricted items. This is the Dyplex difference.

Dyplex has employed former Technical officers from Federal and Provincial Departments that are knowledgeable in Technical Surveillance techniques. These members are familiar with both the offensive and defensive practices of Technical Surveillance and Countermeasures. This is the Dyplex advantage. Our TSCM Group will provide a full security analysis both electronic and physical for your location. We will outline vulnerabilities and suggest solutions. Each business location and meeting venue demand different approaches to security based on physical location and size, access by personnel and the public along with the level of risk to disclosure of information.

Please contact Dyplex Communications T.S.C.M Group to arrange a meeting to discuss your organizations needs.

Initiating a Sweep

Things to do.

Call, email or write Dyplex Communications Ltd from a secure location requesting information on obtaining a TSCM Sweep.

Discuss the sweep only with those persons that must know about it and limit your discussions to safe places.

Is the sweep because of suspect information loss, or a routine preventative measure, or a sensitive meeting?

These along with other information will assist in tailoring a security solution for your organization.

Dyplex Communications looks forward to discussing and supporting your Security needs.

T.S.C.M Group

What are Technical Surveillance Counter Measures?

T.S.C.M. – and the security process commonly known as a *Sweep* – delivers you the confidence of a secure environment, eliminates threat of unauthorized interception of your private information.

Why the Need for TSCM Sweeps?

Today's technology makes it easy for unscrupulous individuals to compromise your privacy and threaten unauthorized disclosure of your private information - personal or corporate – that can affect you in a variety of devastating ways.

Why Choose the Dyplex TSCM Group?

For over 25 years, and as licensed supplier of restricted goods, advanced technology and services to Government of Canada, other provincial Law Enforcement groups and Ministries, Dyplex has been trusted with Interception of Private Communications.

Dyplex has led the Canadian marketplace in the highly specialized field of Electronic Surveillance and Counter Measures.

The Dyplex TSCM Group Advantage

The major difference – at Dyplex we *are* veterans with the most current technology.

Dyplex' TSCM Group - led by Al Doubrough, 27-year O.P.P. Criminal Investigator veteran of SIO (Surreptitious Investigative Operations) including 10 years with Headquarters Technical Support Bureau – is a dedicated team of professionals with years of experience and expertise in covert electronics.

Al's team includes Police Technical and Electronics veterans and is backstopped by Al's track record as Electronic Engineering Technologist at Pearson Int'l Airport and special designation: Court Expert, Law Enforcement Technical Surveillance Countermeasures.

Dyplex' clients expect – and receive – the highest possible security available today.
